

Technology Production Project #2

This will be an individual project that will require you to complete the following for a **News Brief Video**.

1. The completed project will be a self-contained news program lasting about three minutes.
2. The project will include opening and ending credits with music.
3. The project will include a story read on camera by you “the anchor-person” about something that happened or is happening locally.
4. The project will include a videotape story narrated by the anchorperson.
5. The project will include a complete news segment on videotape, which will be introduced by the anchor.
6. We will need to export our I-movie to VHS tape so that we can see movies on a VCR. Instructions will follow. .
7. You will need to use as many of the I-movie components as necessary. The more you use.... Does or does not always mean a good video. Use enough of the I-movie features that help create a professional looking video.
8. Remember you also have to work on your “Channel One” group project as well. So do not wait until the last minute to complete the assignment.
9. Assignment is due _____.
10. Project is worth 100pts for professional appearance of the production, coordination, and quality of content.
11. You will need to either save the movie on the desktop or burn it on your CD. Some movies will be rather lengthy and might not fit on your CD.
- 12. Before any work can be started you will need to create a flow chart of how you are going to create your video. Flowchart or storyboards need to be turned in by _____.**
